

Dr. Ray Finlay

Dr Ray Finlay is a medicinal chemist in the AstraZeneca Oncology Innovative Medicines unit based at Alderley park in the UK. His academic training is in synthetic organic chemistry, including undergraduate studies guided by Professor John Leonard at the University of Salford, doctoral work with Professor Ian Paterson at the University of Cambridge, and a two year post doctoral appointment with Professor K.C. Nicolaou at the Scripps Research Institute in La Jolla, California.

Since joining AstraZeneca he has worked as a medicinal chemist in the inflammation and oncology therapy areas, with experience from early lead generation through to candidate nomination.
