Collaboration Packages for the SCS Spring Meeting 2016

University of Zürich, Department of Chemistry
Irchel Campus, Winterthurerstrasse 190, 8057 Zürich
April 22, 2016, 09:30-17:00

The SCS Spring and Fall Meeting are the two **annual main events** of the Swiss Chemical Society SCS in the field of chemical research. The focus of these one-day conferences is the **promotion of scientific activities** in all domains of chemistry with special attention to scientific exchange and presentation/discussion of the most recent advances in the field. Furthermore they provide an excellent **point of contact** between universities and industry and help to establish an effective chemical network.

The topic at the SCS Spring Meeting 2016 is '**Green Chemistry**' and the program includes 5 lectures given by experts from all over the world as well as the ceremony and the lecture of the SCS Werner Prize 2016.

At the Spring Meeting the target audience are scientists from academia and industry. The organizing committee expects more than 300 scientists to attend the April 2016 meeting in Zurich.

Finances

There is no entrance fee to pay to attend the lectures. It's our goal to keep it for free to ensure a knowledge transfer platform that is open and accessible for everyone. Sponsors and benefactors ensure the necessary financial resources. Total budget of the event is 24'000 CHF.
