

## Oliver Dumele

Oliver studied Chemistry at the University of Mainz and UC Berkeley. After research projects at the Max Planck Institute for Polymer Research, BASF Ludwigshafen, and NUS Singapore, he moved to Switzerland for his doctoral studies. In 2015, he received his PhD from ETH Zürich in the group of Prof. Diederich. After postdoctoral research with Prof. Stupp at Northwestern University, he started his independent career at Humboldt University Berlin. Since 2023, he is a Professor for Functional Organic Materials at the University of Freiburg/Germany.
