

## Koji Kubota

Koji Kubota earned his Ph.D. in 2016 under the supervision of Professor Hajime Ito at Hokkaido University. He then joined the laboratory of Professor F. Dean Toste at the University of California, Berkeley as a postdoctoral fellow. In 2017, he transferred to the Massachusetts Institute of Technology and joined the laboratory of Professor Stephen L. Buchwald as a JSPS overseas research fellow. He began his academic career at Hokkaido University in 2018 and was promoted to Associate Professor in 2021. His recent research interests include the development of new selective organic reactions using mechanochemistry.
