50th Euchem Conference on Stereochemistry Brunnen, April 26 – May 1, 2015

President: **Antonio Togni**
 Vice-President: **Paul Knochel**
 Guest of Honor: **Dieter Seebach**

Dieter Schlüter	SUNDAY Evening Session – Moderator: David Reinhoudt Synthetic Two-Dimensional Macromolecules
Jinbo Hu	MONDAY Morning Session – Moderators: Klaus Müller / Andreas Pfaltz A Journey of Discovering New Fluoroalkylation Reagents and Reactions
Cristina Nevado	Mechanistic Diversity in Late Transition Metal Catalyzed Reactions
Thomas O'Halloran	MONDAY Evening Session – Moderator: Luisa De Cola Inorganic Chemistry in Control of Cell Fate Decisions: Single Cell Fluorescence Analysis of Zinc Fluxes Regulating Mammalian Fertilization
Markus Ribbe Ben L. Feringa	TUESDAY Morning Session – Moderators: Jan Bäckvall / E. Peter Kündig Nitrogenase: A Tale of Carbon(s) Dynamic Molecular Systems
Ayusman Sen	TUESDAY Evening Session – Moderator: Lia Addadi Fantastic Voyage: Designing Self-Powered Nanobots
Sarah Reisman	WEDNESDAY Morning Session – Moderators: Paul Knochel / Antonio M. Echavarren From Terpenoids to Alkaloids: New Strategies and Tactics for the Synthesis of Polycyclic Natural Products
Richmond Sarpong	Strategies and Methods for the Synthesis of Complex Natural Products
David O'Hagan	WEDNESDAY Musical Evening – <i>Eliana Burki (Alphorn and Vocals)</i> <i>Samuel Siegenthaler (Guitar), Adriano Regazzin (Keyboard)</i> <i>Thomas Reinecke (Bass), Lukas Gasser (Drums)</i>
Matthew Francis	THURSDAY Morning Session – Moderators: Alain Krief / Bernhard Kräutler Multivincinal Fluorinated Aliphatics and Cyclohexanes
Cynthia Burrows	New Chemical Reactions to Make Complex Biomolecular Materials
Masayuki Inoue	THURSDAY Evening Session – Moderator: Donald Hilvert Adventures in Oxidative Damage, G-Quadruplex Topology, and Gene Expression
Jieping Zhu	FRIDAY Morning Session – Moderators: Andrea Vasella / Samir Zard Radical-Based Approach for Synthesis of Complex Natural Products
	Polycyclic Monoterpene Indole Alkaloids, Inspiring Targets for Total Synthesis
