Society

University  
of Basel

CLARIANT 

The Clariant CleanTech Award Switzerland is available to successful Master students, PhD students, and Postdocs who have distinguished themselves with outstanding scientific achievements at the departments of chemistry and adjacent disciplines of universities, universities of applied sciences and institutes in Switzerland in areas of Sustainable Chemistry such as resource efficiency, renewable energy, renewable raw materials or green technologies and environmental protection.

Master students, PhD students, and Postdocs will be considered with regard to their different levels of training.

**Applicants are requested to submit their curriculum vitae, a brief description of the scientific results (max. 5 pages), and an expert assessment from a supervisor by 24 August 2018 via:**

# Sustainability PAYS OFF!

# That's Clariant SPECIALTY CHEMICALS THAT CREATE VALUE

Clariant, the Swiss Chemical Society and the University of Basel once again are partnering to award the Clariant CleanTech Award Switzerland and offer a lecture slot at the »Clariant Chemistry Day« at the University of Basel on 4 October 2018. The Clariant CleanTech Award Switzerland is endowed with a total of CHF 10 000. The first prize is endowed with CHF 5 000.

This award program honors outstanding scientific achievements of Master students, PhD students, and Postdocs in Switzerland in the field of Sustainable Chemistry, in areas such as resource efficiency, renewable energy, renewable raw materials or green technologies and environmental protection.

With Research & Development the chemical industry contributes to tackle the challenges of our society by creating product and process innovation. As a company that creates value through sustainability and innovation, Clariant is particularly concerned about strengthening the knowledge base of CleanTech in Switzerland.

This is why we actively promote knowledge sharing between students, researchers, and companies, and sponsor young talents with their research projects in the field of sustainable chemistry.

Clariant is a globally leading specialty chemicals company, based in Muttensz near Basel/Switzerland. On 31 December 2017 the company employed a total workforce of 18 135. In the financial year 2017, Clariant recorded sales of CHF 6 377 billion for its continuing businesses. The company reports in four business areas:

- Care Chemicals
- Catalysis
- Natural Resources
- Plastics & Coatings

Clariant's corporate strategy is based on five pillars: focus on innovation through R&D, add value with sustainability, reposition the portfolio, intensify growth, and increase profitability.

Clariant's worldclass products and services play a key role in its customers' manufacturing processes and add value to their end products. The company's success is based on the know-how of its people and their ability to identify new customer needs at an early stage and to work together with customers, an international network of chemists, scientists, businesspeople, engineers, and specialists in other sectors to develop innovative, efficient solutions.
